## **PCSB ADMISSION REQUIREMENTS**

All new Providence College School of Business majors (accountancy, finance, management, or marketing) will be required to have at least a 2.5 cumulative overall GPA at the completion of two semesters of academic work at PC to continue in their business major. GPA reviews will take place at the end of each semester during the first two semesters of coursework only. Non-business majors interested in changing their major to business will need at least a 2.5 cumulative overall GPA to enter the School of Business and must attend a mandatory PCSB Declaration of Major session. The PCSB will not accept change of major requests after second semester sophomore year. Additional information can be found on the School of Business website: <http://business.providence.edu/>.
