#### Other Information:

- To complete the minor in Black Studies, students take one required course (BLS 101) and select FIVE additional courses from the program electives. Students select the five elective courses from three thematic tracks. Each student is required to complete at least one elective from each track. The remaining two electives allow for and promote specialization within a particular track. It is possible that a single course might satisfy the requirement of one or more tracks. However, a course will only be counted as meeting the requirements of ONE thematic track. For students whose interests are not directly addressed in formal course offerings, the program also offers the opportunity for independent reading and research, at the student's initiative, with the support of a faculty sponsor.
